### WACUBO Women's Leadership Forum

Join us for two and a half days of inspirational professional development that will help you grow as a leader, develop your career path, and build a support network to help you succeed.

Through creative and informative sessions; thought-provoking panel discussions; and group activities, this event focuses on women partnering with women to build networks for continued career growth; exploring strategies for work and life integration; and leveraging your unique leadership style to achieve your goals.

### Learning Objectives

- Participants will learn how to deploy leadership skills that will advance effectiveness on campus and be given the opportunity to build a circle of colleagues to keep in contact with after the event.
- Participants will learn about the unique management structures in higher education and how to engage with others across the organization.
- Participants will learn to recognize the importance and impact of diversity and inclusion in higher education, as well as the unique roles and perspectives that a diverse workforce brings to our institutions.
- Participants will learn techniques for improved business communication and networking, and how to utilize those techniques in order to attain improved working relationships.

### Preconference Workshop - Career Mapping: Narrating Your Leadership Journey

This year's event will also feature the opportunity for participants to register for a half-day preconference workshop. In this interactive workshop, participants will be guided through a series of creative writing, storytelling, and close reading activities that draw upon memory, sensory experiences, and affect to begin crafting a leadership narrative about how they see the world and how they hope to make an impact. The workshop will offer models for storytelling and introduce a method to help participants generate a series of texts that can be woven into a meaningful narrative that guides their leadership journey.
